## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-6,8-15,17-22 and 24-27 allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach, disclose, or suggest, either alone or in combination A controller for controlling generator sets connectable to a load, each generator set having the ability to be started and stopped and including a generator communications link for connecting the generator set to a network, an engine, and a generator driven by the engine which generates AC power, comprising: a user interface for allowing a user to select each of the plurality of generator sets and to set values for various predetermined operating parameters of each of the generator sets; and a communications link correctable to the network for transmitting the user set values of the predetermined operating parameters to each selected generator set. Therefore, the limitations contained on claims 1-6,8-15,17-22 and 24-27 are considered to be in condition of allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
